Re: OMEGA Workmanship Site Visit

At: Salford Royal Hospital
Manchester
On: 29th June 2011

Following our site visit as described above, we have pleasure in informing you of your evaluation score against our OMEGA workmanship checklist.

Your score is.. **100%**

Congratulations on achieving full marks. We have attached the completed site visit checklist for your records.

Please remember that this is not an appraisal of the completed installation, but an evaluation based upon the installation as was visible on the day of visit by the Armstrong representative and is limited to the Armstrong installation recommendations as published in our literature.

You are reminded that you may submit a project for workmanship assessment at any time, but no later than 3 years from the date of your last official workmanship site visit.

If you have any questions regarding workmanship assessments or any aspect of the OMEGA programme, do not hesitate to contact either myself or your local Armstrong representative.
